- Object-Oriented Programming (OOP)
- Programming Fundamentals
- Data Structures and Algorithms (DSA)
- Database Management Systems (DBMS)

## SKILLS

PHP (Laravel Framework)

JavaScript (Vue.js Framework)

RESTful APIs

Git (Version Control)

Livewire (laravel)

Problem Solving

MVC

Bootstrap

authentication

AJAX (Asynchronous Data Loading)

## PERSONAL PROJECTS

### Islameapp

- Developed and maintained web applications using the Laravel framework, implementing authentication and Livewire for dynamic, real-time features. Created RESTful APIs to facilitate seamless data exchange. Integrated modern frontend technologies, including Vue.js, with Laravel to ensure responsive and dynamic user interfaces. Utilized Tailwind CSS and Bootstrap for styling to enhance visual appeal. Collaborated with cross-functional teams following DevOps methodologies, managed version control with Git and GitHub, and deployed applications on Hosting and Vercel.
